

Option GT Ultra Express (AT&T) Detail

The Option GT Ultra Express provides enhanced mobile broadband performance for quick easy access to email, the internet, and business apps on your laptop while on-the-go. The GT Ultra Express operates seamlessly across AT&T's 3G BroadbandConnect and EDGE networks providing you the perfect combination of performance and coverage. And with quad-band GSM support, you can stay connected whether traveling across town or halfway around the world. Designed to work with newer laptops with slots, it has a convenient flip antenna that will keep you connected wherever business takes you.
